With September, comes the beginning of many wonderful new experiences. We will be taking an educational journey together exploring our country and the past. Science will allow us to explore life and energy, and the amazing world around us. I encourage you to take an active roll in your child's education. Talk to him or her and discuss school topics and events. Remember that a child's first teacher is his or her parents.

I want to take this opportunity to stress how important I believe communication is between home, students, and school. Please use the student planner consistently to communicate with me. I invite all parents and guardians to call me at school if ever a need arises. And, I am more than willing to meet with you in person, if you prefer that type of communication. My classes have always celebrated successes inside and outside school. The more I know about my students, the better I can reach them. Please feel free to contact me with any comments or concerns at the school. The phone number is 905-877-9112.

I am also connected electronically. You may have seen my web site already, linked from the school's site. My site has important links and contact information. I will post assignment sheets on there, and pictures of projects. Much of my outside of school time is spent on the computer, so email is a great way to reach me. Of course if there are any serious problems I will contact you via telephone.

My expectations of each student are simple yet high. I expect that they will be kind, prepared, considerate, and safe. Most of all, I want them to put forth their best effort every day. I will help them meet these expectations and I ask that you help as well. This will ensure a productive and prosperous school year.

I wish everybody a successful and productive year. I know it will be a great one! I look forward to meeting you all.

Cheers, Jill Dupuis
